

TOBACCO ENGINEERING

### **BENEFITS**

- Single Pillar Design
- Simple operation
- Multi-Stage Tip
- Easy to clean and maintain
- Adaptable cage design for various container types

## **LTL BIN TIPPER**

### **OUR DESIGN TO MEET YOUR NEEDS**

The LTL Group are designers and manufacturers of bespoke process equipment for the world tobacco industries.

The LTL Bin Tipper is designed to suit our customers individual needs, depending upon size of bins / containers and discharge height / configuration.

The tipping action can be powered by direct drive, chain, ball screw, pneumatic ram or hydraulic ram, depending upon the application and loading.

A range of control options complete the package to provide a totally flexible bin tipping solution.
